Regulatory Approval of OU1 Technical Memorandum 5

Jay J. M. Kersh, Associate General Manager Environmental Restoration and Waste Management EG&G Rocky Flats, Inc.

CDH and EPA have approved our proposed Operable Unit 1 (881 Hillside) Technical Memorandum 5, Surface Soil Sampling and Analysis Plan by letter, dated March 10, 1992 (attached). You will note that CDH/EPA letter states:

"...approval of TM5 does not absolve DOE of its responsibility to meet the IAG milestone of July 30, 1992 for submittal of the Draft Phase III RFI/RI Report..."

We have received indications from your staff that we will not be able to meet the July 30, 1992 milestone for the Draft Phase III RFI/RI Report due to various reasons, including analytical data turnaround problems. If this is the case, you need to formally notify us of the specific delays and the "good cause" for those delays so we can request schedule extensions from EPA and CDH.

If you have any questions, please contact Richard Schassburger at 4888 or Scott Grace at 7199.
